Subject: DHHS Contacts

Patrick,
Good Afternoon,
I've been meaning to reach out to you, regarding the Harvey recovery response.
I've been down here at the JFO in Austin, but scheduled to come back into the Regional Office in Dallas for a brief period.

We've received Mission Assignment from FEMA, and working with their Safety folks here, and out in the Corpus, Houston, Beaumont and Pasadena areas.
FEMA Safety has asked us to assist them with standing up an Interagency Safety Committee for all Federal partners.

I've met some DHHS folks here, but evidently, they are deploying out to deal with Hurricane Irma.
We'll need a DHHS / ATSDR representative for the committee, and I wanted to see if that's something you'd be interested in, or if there was some other representative from DHHS that you could provide the contact info for.
My Cell is 254-368-1461, and when able, we can get together over the phone to discuss.

Regards,

Doug Huddleston, Certified Safety Professional
